

CRS Activity 510

Progress Report on Implementation of Credited Plan

Date this Report was Completed: *January 3, 2023*

Name of Community: *Town of Clarksville, IN. 180026*

Name of Plan: *Clark County Multi-Hazard Mitigation Plan*

Date of Adoption of Plan: *October 10, 2022*

*5 Year CRS Expiration Date: October 10, 2027. This Plan has been updated and submitted to FEMA reviewed and approved.*

1. How can a copy of the original plan or area analysis report be obtained?

- *From the Clark County Emergency Management Agency.*
- *The Town of Clarksville's Floodplain Administrator's Office (digital copy only).*
- *The updated Multi-Hazard Mitigation plan has also been posted on the Floodplain Information page located at the Town's website.*

2. Describe how this evaluation report was prepared and how it was submitted to the governing body, released to the media, and made available to the public:

*This evaluation report was prepared by the Clarksville Floodplain Administrator and CRS Coordinator. This report will be submitted to the Clarksville Town Council at the council meeting held on January 17th, 2023. It will made available to the media and public on the floodplain information page located on the Town of Clarksville's website as soon as practicable.*

3. Provide a description of the implementation of each recommendation or action item in the action plan or area analysis report, including a statement on how the project was implemented or not implemented during the previous year:

*See Attached "Exhibit A". For the sake of brevity, only those activities that effect flood hazard for the Town of Clarksville and not listed as being previously completed in the Clark County multi-jurisdictional Multi-Hazard Mitigation plan will be addressed.*

4. Discuss why any objectives were not reached or why implementation is behind schedule:

*See Attached "Exhibit A"*

5. What are the recommendations for new projects or revised recommendations?

- *Add secondary positive closure to all levee penetrations, IE: sluice gates or other manual type valves. This was included in the plan update.*
- *Stream stabilization and restoration of Mill Creek from Randolph Avenue to the levee.*
- *Stream stabilization and restoration of no name creek from Greentree Boulevard. to Blackiston Mill Road.*
- *Work with local conservancy groups to protect wetlands and open space.*
- *Regional detention basin for flows into Plum Run Creek upstream from Deer Run Park Subdivision.*
- *Removal of low head dams on Silver Creek at Brown Station Way and Blackiston Mill Road.*
- *Update the 2008 Clarksville drainage study identifying any additional locations of flooding within the jurisdiction.*
